## FEATURES & BENEFITS

### Beautiful burners

Our award-winning Gas on Glass Cooktops deliver total cooking precision with the latest burner technology. The consistent flame and heat distribution of the dual flame wok burner combined with highly responsive dials offer precise heat control.

### Complementary design

The black reflective glass, brushed stainless steel and polished metal trim blend elegance with durability. Designed to match the Fisher & Paykel family of appliances.

### Precise control

Simply turn the dials to ignite the flame quickly and safely. Precise heat adjustment from very high to very low heat can perfect a slow simmer for sauces or an intense heat for searing steaks.
