NOTE: all values in grey are provisional. Final values will be shared once closer to production.
Colours may vary during NPI and NPD.

¹With up to 15 AirWatt Suction Power X 30 minutes or more Runtime (1)
1. Suction power AW measured according to IEC62885-4:2020 at tube end; runtime measured with nozzle attached according to IEC62885-4:2020; based on internal tests

²When the cleaner is in use and attended, you can temporarily park it in vertical position on hard floors. However, if the vacuum is left unattended, it must be stored on its wall mount.
