FEATURES & BENEFITS

Water on tap

The slimline dispenser makes it easy to fill almost any sized jug or vessel with cool filtered water and doesn't take up any storage space in your fridge.

Humidity control

Your fruit and veges need different environments. The humidity control slides in each storage bin create a microclimate that helps keep food fresher for longer.

Clever energy

Your fridge adapts to daily use by cooling and defrosting only when needed. This means your fridge uses the energy it needs without compromising on food care.

Design quality

Our refrigerators are designed and built using quality materials. We use real stainless steel, and solid glass for shelving.
